The Answer Entry tool (CHECK button) can be used in a variety of ways. Two of the most common are when entering assessment results directly into eDoctrina (without scanning) and when verifying/editing students scans.

1. Get to the "Teacher Dashboard" screen (see below) by either clicking the "Reports" button on the home screen or navigating to Reports > Teacher Dashboard from the menu bar located at the top of most screens.

2. Once at the dashboard (see above), use the first row of filters to select the students for which you'll be verifying/editing responses. Please note that "Course" and "Class" are mandatory drop-downs. The "Select Students" option allows you to select individual students but will automatically select all students. By manipulating the second row of filters, you are locating a particular assessment.
3. When the appropriate students and assessment have been located, click the "Check" button and the "Answer Entry" screen (see top of page) appears.
4. Here, student responses will appear a different color depending on status:
  - o **Gray:** Indicates a student has not taken the assessment yet.
  - o **Green:** A student got the question correct.
  - o **Red:** A student got the question incorrect.
  - o **Yellow:** No data was recorded for a student. There was a scanning issue.

- o **Yellow w/ Star:** A student chose multiple responses for one question and the teacher needs to review the selection.

## Help on answers

-  This represents a question with NO DATA
-  This represents a CORRECT answer
-  This represents an INCORRECT answer
-  Select this to EXCLUDE this question for this student
-  This represents a question where multiple answer choices were detected.
-  This represents a question where an answer choice was not detected.

*Teacher-scored questions will not*

5.

*display correct/incorrect responses, but, rather, the number of points earned on the question.*

*NOTE: If answers are left as blank (yellow) or multiple answers (yellow \*) these questions will count as zero points for the students.*

- To enter scores, users click the appropriate box and a drop-down menu will display the options available. Click the appropriate response from the drop-down and it will show in the box (which is now color-coded). If a user needs to review a student's answer sheet and it resides within eDoctrina, an icon will display in the "Ans Sht" column to the right of the student's name. Clicking it will display a PDF version of his/her answer sheet for
